<b>Attendance %</b>	0	0	96.8	88.5	93.7	96.2	95.8	89.9	96.1	94.6	100
<b>Lates</b>	0	0	0	1	2	2	1	0	0	1	1
Izna	F1	Izna deserves star of the week because she has been demonstrating fantastic independence since returning to school after the summer holidays. She has been such a good friend to the new children in F1, taking care of them and helping them when they need it. Well done Izna.								 Independence	
Lorena	FS2 FPS	Lorena has tried really hard this week settling into the routines in FS2. She has tried lots of different activities and has challenged herself too! We are so proud of you Lorena, keep it up!								 Perseverance	
Jacob	FS2 FP	Jacob has shown great curiosity this week when playing with the dinosaurs in learning zone. He was able to successfully name many dinosaurs and talk about their features. He even created a game for him and his friends, where they dug for dinosaurs in the sandpit and then counted how many of each type that they could find! Well done Jacob, I look forward to teaching you lots more about dinosaurs!								 Curiosity	
Keaton	Yr 1 1S	Keaton has shown fantastic perseverance in his Maths this week. He has kept going even when he found it difficult and continued to ask questions to make sure he understood what to do. Great job and keep up the hard work!								 Perseverance	
Hirah	Yr 1 1R	Hirah persevered with her cold write this week to show what she is able to do. She tried her best and took her time to produce a good standard of work. Well done Hirah for your perseverance.								 Perseverance	
Year 2 2A	Yr 2 2A	It was such a difficult task of choosing Star of the Week because there have been so many examples of the learning behaviours on show from everyone! We have made a phenomenal start to the term, particularly with great independence and creativity on display in English to write a description of The Great Fire of London. Plus the superb maths skills to answer some very difficult place value questions as a team. Miss Amor has loved hearing comments from other members of staff as to how well Year 2A have behaved and have highlighted the wonderful example they are setting for others. Long may it continue!									
Sriram	Yr 2 2W	Choosing just one Star of the Week was very tough this week, as all the children have made a great start to the year, but Sriram really impressed me with his writing. He showed great reflection by using much of what he was taught last year like varied sentence starters and exclamation marks. His adventurous word choices showcased his creativity and made his writing thoroughly entertaining to read. Well done, Sriram.									
Bailey	Yr 3 3W	Bailey showed great perseverance in his maths. He found comparing numbers tricky at the start but after working hard, he has grasped this objective really well. What great perseverance.								 Perseverance	
Devontae	Yr 3 3A	Last week Devontae had a small injury and was told by the doctor he could have a whole week off. Devontae decided however that he didn't want to miss out on his learning so he came back to school early, and took extra homework home to catch up. He should be very proud of his fantastic attitude to his learning.								 Independence	
Sienna	Yr 4 4P	Sienna has settled into life in Year 4 quickly and is showing increased independence in her work. She has written a great setting description and been partitioning 4 digit numbers in maths. Keep up the great work Sienna.								 Independence	
Holly	Yr 5 5M	I'm so proud of all the hard work Holly has done since coming back to school, especially in maths. I was particularly impressed with the perseverance that Holly showed to some of the more trickier problems around place value, where she really had to think about why something was right and explain her answer using mathematical vocabulary.								 Perseverance	
Shanae	Yr 6 6R	Shanae has impressed the whole class with her attitude to learning this term. Her hand is up all the time; as well as volunteering answers, she is asking questions to help with her learning. Well done Shanae.
