

# Using

# Fidget Toys

  
 I will use my fidget toys by quietly playing with them

  
 on my lap while I am listening to the teacher, or by

  
 quietly playing with them on my desk.

  
 It is important that I do not disturb the other children when

  
 I use them. It will distract the other children if I

  
 play with them loudly, show them to them, or swing them

  
 around. The other children need to listen to the teacher too and

  
 they cannot do this if I am distracting them.

If I am distracting the other children with my fidget toys then

my teacher may take them off me until I can be

sensible with them again.

When I use my fidget toys properly it helps me learn

better. It also means the other children can learn too. This

will make me, my teachers, the other children, and my

parents happy.
